Gain recognition for your environmental achievements and enhance your organization's reputation as a responsible corporate citizen.

Who is Eligible to Apply for ISO 14064-2?

ISO 14064-2 finds utility in both the public and private sectors. The standard guides businesses in creating inventories that are easily verifiable and comparable to those of other organizations. By using the standard as a reference, these companies can reduce costs associated with inventory performance and verification. Additionally, stakeholders can have increased confidence in the credibility of the inventories, as the standard signifies an agreement on technical best practices for GHG inventories.

For governmental organizations, ISO 14064-2 provides a technical framework that can serve as the foundation for voluntary or mandatory inventory programs and validation/verification processes. This approach allows agencies to focus efforts on developing additional program criteria aligned with their policy goals.

“ISO 14064-2 IS NOT JUST ABOUT ACHIEVING VALIDATION/ VERIFICATION; IT’S A PATHWAY TO CONTINUAL IMPROVEMENT.

Achieving Business with Validation/Verification Opinion

- **Elevate Your Environmental Profile**
Consider obtaining ISO 14064-2 Validation/Verification to highlight your organization’s commitment to sustainable practices.
- **Competitive Advantage**
Validation or Verification provides a competitive edge, demonstrating to clients, partners, and stakeholders that you are actively contributing to global climate goals.
