

SECURE YOUR INFORMATION SYSTEM, CYBERSECURITY, AND PRIVACY PROTECTION

ISO/IEC 27001:2022

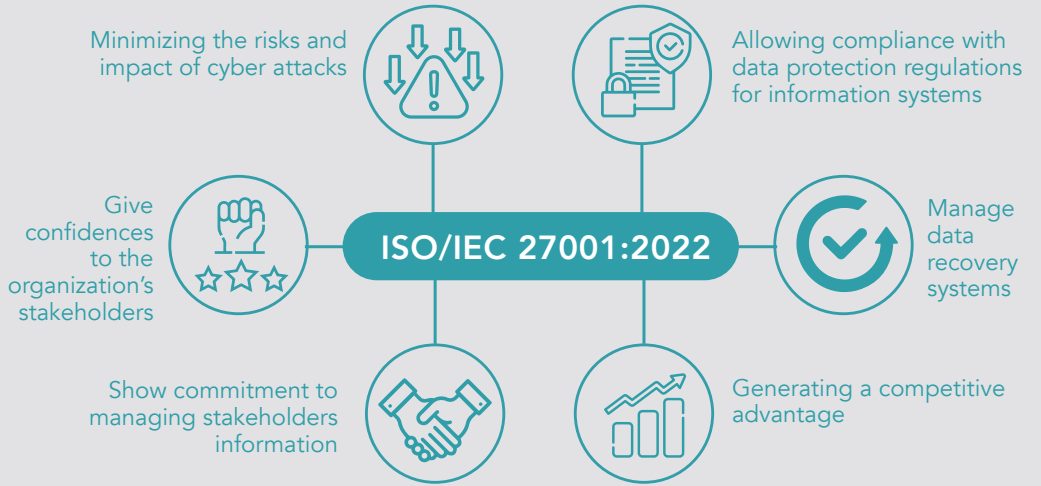

Certification journey with CBQA Global

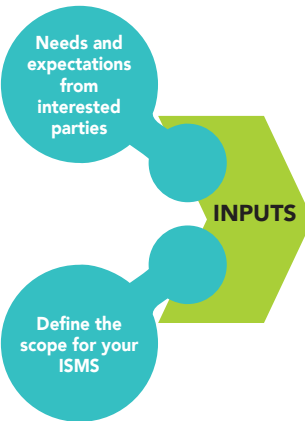

ISO/IEC 27001 will facilitate your business comply by increased government regulation and rough industry specific requirements. Therefore, Information Security Management System is an important standard for any organization that aims to establish, implement, maintain, and continually improve an ISMS in the context of the organization.

Information is an asset, like other valuable assets, that has value for an organization so that it ultimately needs to be secured.

Benefits of being certified in ISO/IEC 27001:2022

***PLAN**
 Define your risks and opportunities in relation to ISMS

***EVALUATION**
 Evaluate the performance and the effectivity of your ISMS. Define what to be measured, measurement method and the time.

***SUPPORT**
 Organization needs to define and provide necessary resources to its ISMS

***LEADERSHIP**
 Top management needs to define:

- Policy
- Commitment
- Responsibility & authority

***OPERATION**
 Check all process that fulfill the information security requirements
