

CBQA Global Verified Mark[®] CARBON APPLICATION PLATFORM

**THE FOUNDATION
OF TRUST IN
CARBON ACCOUNTING
PLATFORM**

THE CHALLENGE & THE SOLUTION NAVIGATING THE CARBON DATA LABYRINTH?

In today's urgent climate agenda, accurate and auditable greenhouse gas (GHG) emission data is vital. Yet, the increase of carbon accounting platforms in the market raises a critical question: How can you be truly confident in the integrity of the data generated by these complex tools?

For Platform Providers:

Are you struggling to differentiate your solution in a crowded market? How do you credibly demonstrate your tool's accuracy and reliability to skeptical users and auditors?

For Businesses

(Platform Users):

Are you concerned about the hidden risks of relying on unverified software for your vital ESG reporting and decarbonization strategies? Is your internal data auditable? The risk of unintentional misreporting and greenwashing accusations looms large without independent assurance.

Introducing the CBQA Global Verified Mark

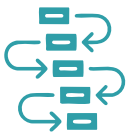

A pioneering verification service that brings independent, third-party assurance to carbon accounting platforms. We delve into the technical core of these tools, giving you and your stakeholders the peace of mind that your carbon data is built on a foundation of verified integrity.

What We Verify & How You Benefit?

Your Platform. Our Rigor. Unrivalled Confidence.

The Power of Independent Verification.

— What We Verify

Methodology Alignment

Does the platform's calculation logic align with leading standards like GHG Protocol, ISO 14064, and ISO 14067 for Scope 1, 2, and 3 emissions?

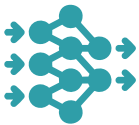

Emission Factor Management

How are emission factors sourced, managed, updated, and applied? Is the database robust and transparent?

Calculation Engine Integrity

Are the algorithms and underlying mathematical models accurate and free from errors? Is the conversion to CO₂e correct?

Data Input & Output Validation

Are there robust mechanisms for data quality checks at input? Does it generate auditable and comprehensive reports?

Audit Trail & Traceability

Can all data, assumptions, and calculation steps be traced back to their origin for complete transparency?

Security & Data Privacy

Are sensitive carbon data and user information handled securely and in compliance with data protection principles?

— Benefits for Platform Providers

Market Leadership

Differentiate your solution with a mark of independent trust.

Competitive Edge

Win more business by offering a pre-verified solution.

Reduced Risk

Mitigate potential liabilities from data inaccuracies or misrepresentation.

Enhanced Credibility
Build unparalleled confidence with prospective clients, investors, and internal stakeholders.

Streamlined Audits
Ease your clients' burden during their own GHG inventory verifications.

Why VERIFIED MARK Matters to Platform Users & The CBQA Global Advantage

— For Businesses: Choose with Confidence

When you choose a CBQA Global Verified Mark for your Carbon Accounting Platform, you gain:

Unwavering Data Trust:

Be confident in the accuracy and reliability of your carbon footprint data.

Data-Driven Decisions:

Base your decarbonization strategies and investments on truly verifiable data.

Simplified Audits:

Streamline your own GHG inventory verifications, knowing your underlying tool is robust.

Regulatory Compliance:

Ensure your reporting aligns seamlessly with evolving regulations.

Mitigated Reputational Risk:

Reduce exposure to greenwashing accusations and ensure compliant reporting.

— The CBQA Global Difference.

As a leading, independent certification and audit body, CBQA Global brings unparalleled expertise and impartiality to the verification of carbon accounting platforms.

Independent:

Our audit process is rigorous, unbiased, and globally recognized.

Global Standard Alignment:

We ensure your platform's methodologies are aligned with the international standards.

Deep Expertise:

Our auditors possess profound knowledge in GHG accounting, software integrity, and data assurance.

Building Digital Trust:

This service is part of our broader commitment to fostering transparency and reliability in digital solutions, from innovative products to complex platforms.

— Are you a Carbon Accounting Platform Provider?

Partner with CBQA Global to earn the Verified Mark and empower your clients with verifiable data.

OUR PROCESS IS VERY STRAIGHTFORWARD
