

Product Carbon Footprint

Under the globally recognized standards of ISO 14067 and the ISCC CFC (International Sustainability and Carbon Certification – Carbon Footprint of Products) framework

At CBQA Global, we specialize in providing certification services for Product Carbon Footprints (PCF) under the globally recognized standards of ISO 14067 and the ISCC CFC (International Sustainability and Carbon Certification – Carbon Footprint of Products) framework. Our services are designed to help businesses accurately measure, certify, and verify the carbon footprint of their products, empowering them to demonstrate environmental responsibility and meet consumer demand for sustainability.

By leveraging ISO 14067 and ISCC CFC, your organization can ensure that your product's carbon emissions are assessed according to international standards, providing a transparent and reliable basis for sustainability claims. Whether you're looking to enhance your marketing efforts, comply with regulatory requirements, or reduce your environmental impact, we are here to guide you through the certification and verification process.

BY LEVERAGING ISO 14067 AND ISCC CFC, YOUR ORGANIZATION CAN ENSURE THAT YOUR PRODUCT'S CARBON EMISSIONS ARE ASSESSED ACCORDING TO INTERNATIONAL STANDARDS, PROVIDING A TRANSPARENT AND RELIABLE BASIS FOR SUSTAINABILITY CLAIMS.

OUR SERVICES INCLUDE

ISO 14067 CERTIFICATION

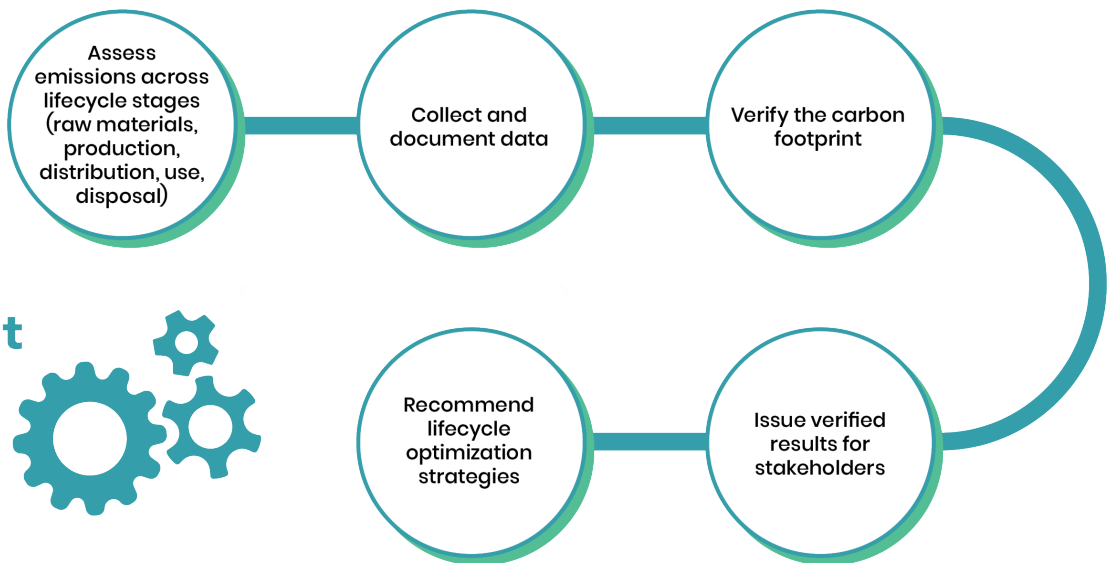

Our team assists with the certification process based on ISO 14067, ensuring that your product's carbon footprint is accurately quantified, reported, and compliant with international guidelines.

ISCC CFC CERTIFICATION

We provide third-party verification for carbon footprint claims under the ISCC CFC framework, ensuring your product's emissions reductions are credible and transparent.

By obtaining ISO 14067 certification or ISCC CFC certification, your organization will not only enhance its environmental credentials but also contribute to global efforts in reducing carbon emissions.
