

CBQA Global Verified Mark

PRIVACY SAFE

**DATA IS YOUR
GREATEST ASSET—
AND YOUR BIGGEST LIABILITY**

In today's data-driven economy, how you handle personal information defines your brand. Customers are more aware of their digital rights than ever before, and global regulations like GDPR and UUPDP have raised the stakes for non-compliance.

They expect your application, SaaS platform, or IoT device to be not only functional but fundamentally comply with privacy compliance.

The key challenges are no longer just about preventing breaches, but about demonstrating responsible data stewardship:

- Are you transparent with users about what data you collect and why?
- Can you efficiently manage user consent and "right to be forgotten" requests?
- Do your data handling practices meet complex international legal standards?
- Is a lack of demonstrable privacy practices hindering your entry into new markets?

Building a product that respects user privacy is no longer optional; it's a fundamental requirement for sustainable growth.

V-Mark PrivacySafe: **The Hallmark of Data Trust & Ethics**

The CBQA Global V-Mark PrivacySafe is a specialized trust mark designed to verify your product's commitment to data privacy and user rights.

While DigiSafe verifies your technical defenses (the vault), PrivacySafe verifies your data governance (the rules for handling what's inside the vault). It answers the most critical questions of the digital age: **What** data do you collect? **Why** do you collect it? And **how** do you empower users with control over their information?

The PrivacySafe mark is a clear, public declaration that your organization treats personal data not as a commodity, but as a responsibility.

Why Verified PrivacySafe

When you choose a CBQA Global Verified Mark for your Privacy Safe Platform, you gain:

Build Deeper Customer Loyalty and Unlock Global Markets

The V-Mark PrivacySafe is a powerful investment in your brand's long-term success.

Build Unbreakable Customer Trust
Show users you respect their privacy, turning them into loyal advocates for your brand.

Demonstrate Regulatory Compliance
Simplify compliance with complex regulations like GDPR and UUPDP with a single, credible verification.

Gain a Powerful Competitive Edge
Differentiate your product as the ethical and trustworthy choice in a crowded marketplace.

Reduce Legal and Financial Risk
Proactively mitigate the risk of enormous fines and reputational damage from privacy missteps.

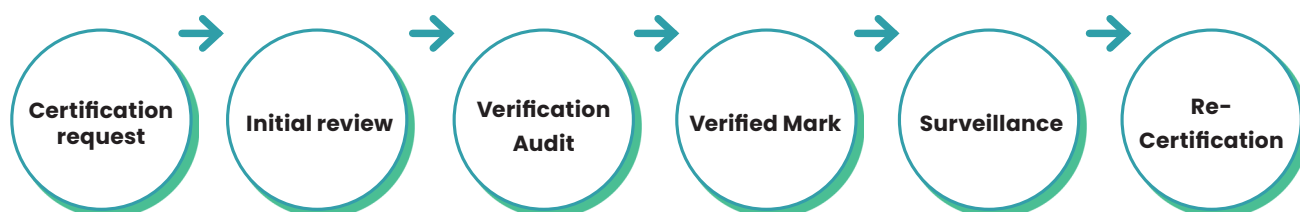

Accelerate Market Entry
Use the V-Mark to demonstrate your readiness to operate in jurisdictions with strict privacy laws, like the European Union.

Are you a Privacy Safe Platform Provider?

Partner with CBQA Global to earn the Verified Mark and empower your clients with verifiable data.
